CHAPTER 1 INTRODUCTION	1-1
Salton Sea Ecosystem Restoration Program Description.....	1-1
Purpose of the Program.....	1-1
Purpose of the Draft Programmatic Environmental Impact Report	1-2
Background	1-3
Importance of the Salton Sea Ecosystem	1-3
The Future of the Salton Sea Without Restoration	1-7
Other Salton Sea Restoration Studies	1-8
Quantification Settlement Agreement	1-8
Legislation Related to Salton Sea Ecosystem Restoration	1-8
Water Transfers	1-9
Preparation of a Restoration Study	1-9
Consultation with Other Agencies and Interest Groups	1-10
Funding of Restoration Plan.....	1-11
Objectives of the Salton Sea Ecosystem Restoration Peir	1-12
Selection of the Preferred Alternative	1-12
Study Area	1-13
Study Period.....	1-13
Salton Sea Advisory Committee	1-13
Study Participants and Stakeholder Coordination.....	1-13
Public Involvement Process	1-14
PEIR Organization	1-16
CHAPTER 2 DEVELOPMENT OF ALTERNATIVES.....	2-1
Development of the Range of Alternatives for the PEIR	2-1
Issues to be Considered in the PEIR	2-1
Issues Identified by the Salton Sea Advisory Committee Members and Other Stakeholders	2-2
Alternatives Considered in Previous Studies	2-2
Development of Alternatives for this PEIR	2-3
Step 1: Description of the No Action Alternative	2-4
Step 2: Identification of Objectives	2-5
Incorporation of Comments	2-5
Step 3: Development of Concepts	2-6
Whole Sea Concepts	2-7
Partial Sea Concepts	2-11
shallow Saline Habitat Concepts.....	2-11
Saltwater Disposal Concepts	2-12
Application of Broad Screening Criteria to Range of Concepts	2-14
Step 4: Development of Configurations	2-17
Import-Export Water from and to the Gulf of California	2-17
Import-Export Water from and to the Pacific Ocean.....	2-19
Partial Sea Configurations with Brine Sink within the Sea Bed.....	2-21
Saline Habitat Complex Configurations with Brine Sink within the Sea Bed.....	2-24
Application of Screening Criteria to Range of Configurations	2-25
Step 5: Development of the Final Range of Alternatives	2-28

CHAPTER 3 DESCRIPTION OF PROGRAM ALTERNATIVES	3-1
Assumptions and Limitations in the Alternatives and Need for Project-Level Analyses	3-1
Land Ownership Assumptions	3-2
Construction Schedule Assumptions	3-2
Early Start Habitat	3-6
Implementing Entities	3-6
No Action Alternative	3-9
No Action Alternative-CEQA Conditions	3-9
No Action Alternative-Variability Conditions	3-61
Alternative 1 – Saline Habitat Complex I	3-61
Saline Habitat Complex	3-61
Sedimentation/Distribution Basins	3-63
Air Quality Management	3-63
Pupfish Connectivity	3-63
Brine Sink	3-63
Alternative 2 – Saline Habitat Complex II	3-64
Saline Habitat Complex and Shoreline Waterway	3-64
Sedimentation/Distribution Basins	3-65
Air Quality Management	3-65
Pupfish Connectivity	3-65
Brine Sink	3-66
Activities in Phases I through IV	3-66
Alternative 3 – Concentric Rings	3-66
First Ring	3-67
Second Ring	3-67
Perimeter Dike	3-67
Sedimentation/Distribution Basins	3-67
Air Quality Management	3-67
Pupfish Connectivity	3-68
Brine Sink	3-68
Activities in Phases I through IV	3-68
Alternative 4 – Concentric Lakes	3-68
First Lake	3-69
Second Lake	3-69
Third Lake	3-69
Fourth Lake	3-69
Geotube® Berm	3-69
Sedimentation/Distribution Basins	3-70
Air Quality Management	3-70
Pupfish Connectivity	3-70
Brine Sink	3-70
Activities in Phases I through IV	3-70
Alternative 5 – North Sea	3-71
Marine Sea	3-71
Barrier	3-71
Saline Habitat Complex and Shoreline Waterway	3-71
Sedimentation/Distribution Basins	3-71
Air Quality Management	3-72
Pupfish Connectivity	3-72
Brine Sink	3-72
Activities in Phases I through IV	3-72

Alternative 6 – Combined North Sea.....	3-73
Marine Sea and Marine Sea Mixing Zone.....	3-73
Sedimentation/Distribution Basins	3-73
Air Quality Management.....	3-73
Saline Habitat Complex and Shoreline Waterway	3-73
Pupfish Connectivity.....	3-74
Brine Sink.....	3-74
Activities in Phases I through IV.....	3-74
Alternative 7 – Combined North and South Lakes	3-75
Recreational Saltwater Lake and Recreational Estuary Lake	3-75
Water Treatment	3-75
Barrier and Perimeter Dike.....	3-75
Imperial Irrigation District Reservoir	3-76
Sedimentation/Distribution Basins	3-76
Air Quality Management.....	3-76
Saline Habitat Complex.....	3-76
Pupfish Connectivity.....	3-77
Brine Sink.....	3-77
Activities in Phases I through IV.....	3-77
Alternative 8 – Combined South Sea	3-77
Marine Sea.....	3-78
Sedimentation/Distribution Basins	3-78
Air Quality Management.....	3-78
Saline Habitat Complex and Shoreline Waterway	3-79
Pupfish Connectivity.....	3-79
Brine Sink.....	3-79
Activities in Phases I through IV.....	3-79
Evaluation of Transfers Allowed under the Quantification Settlement Agreement.....	3-79
Comparison of Alternatives	3-81
Areas of Known Controversy	3-82
Environmentally Superior Alternative	3-82
Water Resources	3-82
Biological Resources.....	3-83
Land Use, Population, and Housing.....	3-83
Significant Unavoidable Adverse Impacts and Irreversible Environmental Changes....	3-84
CHAPTER 4 SUMMARY OF PREVIOUS STUDIES AND RELATED PROJECTS.....	4-1
Previous Studies	4-1
Relationship to other Planned projects, programs, and actions	4-1
Related Projects in Existing Conditions, No Action Alternative-CEQA Conditions, and No Action Alternative-Variability Conditions	4-9
All-American Canal Lining Project.....	4-9
Brawley Constructed Wetlands Demonstration Project.....	4-10
Coachella Canal Lining Project.....	4-11
Coachella Valley Water Management Plan.....	4-11
Colorado River Basin Salinity Control Program	4-12
Colorado River-Tijuana Aqueduct Enlargement.....	4-12
Imperial Irrigation District Water Conservation and Transfer Project	4-13
Imperial County General Plan	4-14
Imperial-Mexicali 230-kV Transmission Lines	4-15
Quantification Settlement Agreement	4-15

Riverside County General Plan.....	4-16
Salton Sea Unit 6, CE Obsidian Energy LLC	4-17
Torres Martinez Land Use, Zoning and Development Plan	4-17
Total Maximum Daily Load Implementation	4-18
Wastewater Conveyance and Treatment Project for the Mexicali II Service Area	4-18
CHAPTER 5 SURFACE WATER RESOURCES	5-1
Study Area	5-1
Regulatory Requirements	5-1
Water Rights	5-1
Salton Sea and Agricultural Drainage	5-5
Federal Regulations	5-5
State Regulations	5-5
Historical Perspective.....	5-5
Data Sources	5-6
Data Limitations	5-6
Existing Conditions.....	5-6
Salton Sea Watershed	5-6
Inflows from Mexico	5-9
New River.....	5-9
Alamo River.....	5-9
Inflows from the Imperial Valley	5-10
New River.....	5-10
Alamo River.....	5-10
Imperial Valley Drains	5-13
Inflows from the Coachella Valley	5-13
Whitewater River/Coachella Valley Storm Channel and Direct Drains	5-14
Inflows from the Local Watersheds	5-14
San Felipe Creek	5-14
Salt Creek	5-17
Other Surface Water Inflows	5-17
Water Balance at the Salton Sea	5-17
Environmental Consequences	5-18
Analysis Methodology	5-18
Significance Criteria	5-21
Application of Significance Criteria.....	5-21
Summary of Assumptions	5-22
Summary of Impact Assessment	5-22
No Action Alternative.....	5-22
Inflows and Climate Assumptions for No Action Alternative-	
CEQA Conditions	5-22
Inflows and Climate Assumptions for No Action Alternative-Variability	
Conditions.....	5-26
Impact Assessment of the No Action Alternative	5-33
Alternative 1 – Saline Habitat Complex I.....	5-41
Alternative 2 – Saline Habitat Complex II.....	5-42
Alternative 3 – Concentric Rings	5-49
Alternative 4 – Concentric Lakes	5-50
Alternative 5 – North Sea	5-53
Alternative 6 – North Sea Combined.....	5-54

Alternative 7 – Combined North and South Lakes	5-54
Alternative 8 – South Sea Combined	5-63
Next Steps.....	5-64
CHAPTER 6 SURFACE WATER QUALITY	6-1
Study Area	6-1
Regulatory Requirements	6-1
Federal Regulations	6-1
State Regulations	6-5
Historical Perspective.....	6-6
Data Sources	6-6
Data Limitations	6-7
Existing Conditions.....	6-7
Physical Characteristics	6-7
Meteorological Conditions	6-7
Salton Sea Water Circulation	6-8
Salinity.....	6-8
Selenium	6-8
Temperature.....	6-17
Dissolved Oxygen	6-17
Nutrients.....	6-18
Phosphorus	6-18
Nitrogen.....	6-18
Nitrogen-to-Phosphorus Ratios	6-24
Chlorophyll	6-24
Hydrogen Sulfide.....	6-24
Environmental Impacts.....	6-24
Analysis Methodology	6-24
Methodology for Estimating Salinity	6-25
Methodology for Estimating Marine Sea Water Quality	6-25
Methodology for Estimating Saline Habitat Complex, Concentric Rings, and Concentric Lakes Water Quality	6-25
Methodology for Estimating Selenium Impacts	6-26
Significance Criteria	6-26
Application of Significance Criteria.....	6-26
Summary of Assumptions	6-27
Summary of Impact Assessment	6-28
No Action Alternative.....	6-28
Alternative 1 – Saline Habitat Complex I.....	6-32
Alternative 2 – Saline Habitat Complex II.....	6-33
Alternative 3 – Concentric Rings.....	6-33
Alternative 4 – Concentric Lakes	6-34
Alternative 5 – North Sea	6-34
Alternative 6 – North Sea Combined.....	6-35
Alternative 7 – Combined North and South Lakes	6-35
Alternative 8 – South Sea Combined	6-36
Next Steps.....	6-36
CHAPTER 7 GROUNDWATER	7-1
Study Area	7-1
Regulatory Requirements	7-1

Historical Perspective.....	7-1
Data Sources	7-1
Data Limitations	7-2
Existing Conditions.....	7-2
Imperial Valley Basin.....	7-2
Indio Subbasin of the Coachella Valley Basin.....	7-5
Subbasins in Areas Not Tributary to Irrigated Areas of Imperial Irrigation District and Coachella Valley Water District	7-6
East Salton Sea Basin	7-6
Chocolate Valley Basin.....	7-6
Orocopia Valley Basin.....	7-6
West Salton Sea Basin	7-7
Ocotillo-Clark Valley Basin.....	7-7
Environmental Impacts.....	7-7
Analysis Methodology	7-7
Significance Criteria	7-7
Application of Significance Criteria.....	7-8
Summary of Assumptions	7-8
Summary of Impact Assessment	7-8
No Action Alternative.....	7-8
Alternative 1 – Saline Habitat Complex I.....	7-10
Alternative 2 – Saline Habitat Complex II.....	7-11
Alternative 3 – Concentric Rings.....	7-11
Alternative 4 – Concentric Lakes	7-11
Alternative 5 – North Sea	7-12
Alternative 6 – North Sea Combined.....	7-12
Alternative 7 – Combined North and South Lakes	7-12
Alternative 8 – South Sea Combined	7-12
Next Steps.....	7-13
CHAPTER 8 BIOLOGICAL RESOURCES	8-1
Study Area	8-1
Regulatory Requirements	8-1
Historical Perspective.....	8-2
Freshwater Phase – 1905 to 1940s	8-3
Marine Phase – 1950 to Early 1980s	8-4
Hypersaline Phase – 1990s through Present.....	8-5
Data Sources	8-5
Data Limitations	8-5
Existing Conditions.....	8-6
Special Status Species	8-6
Desert Pupfish.....	8-6
Western Snowy Plover.....	8-7
American White Pelican.....	8-7
Brown Pelican	8-7
Double-crested Cormorant.....	8-7
White-faced Ibis	8-7
Black Skimmer	8-7
Van Rossem's Gull-billed Tern.....	8-8
Colonial Breeding Birds.....	8-8
Salton Sea Habitats	8-8

Shoreline/Shallow Water	8-8
Open Water	8-11
River Mouths and Deltas	8-12
Islands and Snags	8-12
Riparian Habitat or Other Sensitive Natural Communities	8-13
Wetlands	8-13
Ecological Risk in Salton Sea Habitats	8-13
Environmental Impacts	8-14
Analysis Methodology	8-14
Significance Criteria	8-16
Application of Significance Criteria on the Alternatives	8-17
Summary of Assumptions	8-18
General Impacts of Implementation of Common Facilities	8-19
Berms and Saline Habitat Complex Features	8-19
Sedimentation/Distribution Basins	8-20
Conveyance Facilities	8-21
Barriers and Perimeter Dikes	8-21
Air Quality Management	8-22
Summary of Impact Assessment	8-23
No Action Alternative	8-23
Effects on Fish and Wildlife	8-39
Effects on Special Status Species	8-41
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-45
Effects on Fish and Wildlife Movement	8-45
Alternative 1 – Saline Habitat Complex I	8-46
Effects of Implementation on Fish and Wildlife	8-46
Effects on Special Status Species	8-48
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-49
Effects on Fish and Wildlife Movement	8-49
Alternative 2 – Saline Habitat Complex II	8-50
Effects of Implementation on Fish and Wildlife	8-50
Effects on Special Status Species	8-51
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-52
Effects on Fish and Wildlife Movement	8-52
Alternative 3 – Concentric Rings	8-52
Effects of Implementation on Fish and Wildlife	8-53
Effects on Special Status Species	8-55
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-55
Effects on Fish and Wildlife Movement	8-55
Alternative 4 – Concentric Lakes	8-56
Effects of Implementation on Fish and Wildlife	8-56
Effects on Special Status Species	8-58
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-59
Effects on Fish and Wildlife Movement	8-59
Alternative 5 – North Sea	8-59
Effects of Implementation on Fish and Wildlife	8-60
Effects on Special Status Species	8-61
Effects on Riparian, Sensitive Natural Communities, and Wetlands	8-62
Effects on Fish and Wildlife Movement	8-62
Alternative 6 – North Sea Combined	8-62
Effects of Implementation on Fish and Wildlife	8-63

Effects on Special Status Species	8-64
Effects on Riparian, Sensitive Natural Communities, and Wetlands.....	8-65
Effects on Fish and Wildlife Movement.....	8-65
Alternative 7 – Combined North and South Lakes Alternative	8-66
Effects of Implementation on Fish and Wildlife	8-66
Effects on Special Status Species	8-68
Effects on Riparian, Sensitive Natural Communities, and Wetlands.....	8-68
Effects on Fish and Wildlife Movement.....	8-68
Alternative 8 – South Sea Combined	8-69
Effects of Implementation on Fish and Wildlife	8-69
Effects on Special Status Species	8-71
Effects on Riparian, Sensitive Natural Communities, and Wetlands.....	8-71
Effects on Fish and Wildlife Movement.....	8-71
Performance Relative to Historic Conditions.....	8-71
Fish	8-72
Birds	8-72
Next Steps.....	8-77
CHAPTER 9 GEOLOGY, SOILS, FAULTS, SEISMICITY, AND MINERAL RESOURCES ...9-1	
Study Area	9-1
Regulatory Requirements	9-1
Historical Perspective.....	9-3
Data Sources	9-3
Data Limitations	9-3
Existing Conditions.....	9-3
Geologic Structure	9-3
Regional Geology.....	9-4
Geologic History	9-7
Faults	9-8
San Andreas Fault	9-8
San Jacinto Fault Zone	9-8
Elsinore Fault Zone	9-8
Brawley Seismic Zone.....	9-8
Historical Earthquakes	9-9
Soils	9-9
Soils Adjacent to the Salton Sea.....	9-9
In-Sea Soils.....	9-9
Mineral Resources	9-10
Geologic Hazards.....	9-10
Subsidence	9-10
Liquefaction.....	9-17
Landslides	9-17
Lateral Spreading	9-17
Seiches	9-17
Volcanic Hazards	9-17
Environmental Impacts.....	9-18
Analysis Methodology	9-18
Measuring Seismic Hazards	9-18
California Department of Water Resources, Division of Safety of Dams	9-18
Significance Criteria	9-21
Application of Significance Criteria.....	9-21

Summary of Assumptions	9-22
Summary of Impact Assessment	9-23
No Action Alternative.....	9-23
Alternative 1 – Saline Habitat Complex I.....	9-23
Alternative 2 – Saline Habitat Complex II.....	9-24
Alternative 3 – Concentric Rings.....	9-24
Alternative 4 – Concentric Lakes	9-27
Alternative 5 – North Sea	9-27
Alternative 6 – North Sea Combined.....	9-27
Alternative 7 – Combined North and South Lakes	9-28
Alternative 8 – South Sea Combined	9-28
Next Steps.....	9-29
CHAPTER 10 CLIMATE AND AIR QUALITY.....	10-1
Study Area	10-1
Regulatory Requirements	10-1
Federal Regulations and Standards.....	10-1
Federal Air Quality Designations.....	10-2
Federal General Conformity Requirements	10-5
Federal Prevention of Significant Deterioration and New Source Performance Standards.....	10-6
California Standards and Regulations.....	10-6
Local Regulations and Requirements	10-6
Historical Perspective.....	10-6
Data Sources	10-7
Data Limitations	10-7
Existing Conditions.....	10-7
Climate and Meteorological Conditions.....	10-8
Microclimate	10-9
Regional Wind Patterns	10-9
Meteorological Monitoring Stations	10-10
Ambient Air Quality Monitoring Data	10-10
Ozone.....	10-10
PM ₁₀	10-18
Carbon Monoxide, Nitrites (as NO ₂), and Sulfites (as SO ₂)	10-19
Current Attainment Status Designations	10-20
Imperial County Attainment Status and Applicable Plans	10-20
Riverside County Attainment Status and Applicable Plans	10-21
Regional Emissions Inventory.....	10-22
Criteria Pollutants.....	10-22
Toxic Air Contaminants and Sensitive Receptors	10-23
Odorous Emissions	10-25
Environmental Impacts.....	10-25
Analysis Methodology	10-25
Methodology for Estimation of Emissions from Construction	10-26
Methodology for Estimation of Emissions from Operations and Maintenance	10-27
Methodology for Estimation of PM ₁₀ Emissions from Exposed Playa Areas	10-27
Methodology for General Conformity Applicability Analysis	10-30
Other Analyses.....	10-30
Significance Criteria	10-31
SCAQMD	10-32

ICAPCD.....	10-33
Application of Significance Criteria.....	10-34
Summary of Assumptions	10-35
Summary of Impact Assessment	10-38
No Action Alternative.....	10-38
QSA Implementation	10-38
Adoption and Implementation of AQMPs and SIPs	10-52
Description of the No Action Alternative.....	10-53
General Conformity Applicability Analysis.....	10-62
Odorous Emissions	10-62
Microclimate	10-62
Alternative 1 – Saline Habitat Complex I.....	10-63
Construction Emissions.....	10-63
Operations and Maintenance Related Emissions	10-64
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-64
General Conformity Applicability Analysis.....	10-65
Odorous Emissions	10-65
Microclimate	10-65
Alternative 2 – Saline Habitat Complex II.....	10-65
Construction Emissions.....	10-65
Operations and Maintenance Related Emissions	10-67
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-67
General Conformity Applicability Analysis.....	10-67
Odorous Emissions	10-67
Microclimate	10-68
Alternative 3 – Concentric Rings.....	10-68
Construction Emissions.....	10-68
Operations and Maintenance Related Emissions	10-69
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-70
General Conformity Applicability Analysis.....	10-70
Odorous Emissions	10-70
Microclimate	10-71
Alternative 4 – Concentric Lakes	10-71
Construction Emissions.....	10-71
Operations and Maintenance Related Emissions	10-72
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-73
General Conformity Applicability Analysis.....	10-73
Odorous Emissions	10-73
Microclimate	10-73
Alternative 5 – North Sea	10-73
Construction Emissions.....	10-74
Operations and Maintenance Related Emissions	10-75
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-76
General Conformity Applicability Analysis.....	10-76
Odorous Emissions	10-76
Microclimate	10-76
Alternative 6 – North Sea Combined.....	10-76
Construction Emissions.....	10-77
Operations and Maintenance Related Emissions	10-78
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-79
General Conformity Applicability Analysis.....	10-79

Odorous Emissions	10-79
Microclimate	10-79
Alternative 7 – Combined North and South Lakes	10-79
Construction Emissions.....	10-79
Operations and Maintenance Related Emissions	10-81
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-81
General Conformity Applicability Analysis.....	10-82
Odorous Emissions	10-82
Microclimate	10-82
Alternative 8 – South Sea Combined	10-82
Construction Emissions.....	10-82
Operations and Maintenance Related Emissions	10-84
Fugitive Dust Emissions Associated with Exposed Playa Areas.....	10-85
General Conformity Applicability Analysis.....	10-85
Odorous Emissions	10-85
Microclimate	10-85
Next Steps.....	10-85
CHAPTER 11 LAND USE	11-1
Study Area	11-1
Regulatory Requirements	11-1
Historical Perspective.....	11-2
Data Sources	11-2
Existing Conditions.....	11-5
Federal Land Use Planning Efforts	11-5
State Land Use Planning Efforts	11-5
Regional Land Use Planning Efforts	11-6
Imperial County General Plan	11-6
West Shores/Salton City	11-10
Bombay Beach/Hot Mineral Spa Community Area Plan	11-10
Imperial County Colonia Master Plan.....	11-25
Riverside County General Plan	11-25
Urban Uses	11-25
Torres Martinez Desert Cahuilla Indians Land Use, Zoning and Development Plan	11-25
Important Farmlands	11-26
Environmental Impacts.....	11-26
Analysis Methodology	11-26
Significance Criteria	11-26
Application of Significance Criteria on the Alternatives	11-35
Summary of Assumptions	11-36
Summary of Impact Assessment	11-36
No Action Alternative.....	11-36
Alternative 1 – Saline Habitat Complex I.....	11-41
Alternative 2 – Saline Habitat Complex II.....	11-41
Alternative 3 – Concentric Rings.....	11-41
Alternative 4 – Concentric Lakes	11-46
Alternative 5 – North Sea	11-46
Alternative 6 – North Sea Combined.....	11-47
Alternative 7 – Combined North and South Lakes	11-47
Alternative 8 – South Sea Combined	11-47

Next Steps.....	11-48
CHAPTER 12 POPULATION AND HOUSING	12-1
Study Area	12-1
Regulatory Requirements	12-1
Historical Perspective.....	12-1
Data Sources	12-1
Data Limitations	12-1
Existing Conditions.....	12-2
Population	12-2
Housing	12-2
Employment	12-13
Environmental Impacts.....	12-14
Analysis Methodology	12-14
Significance Criteria	12-14
Application of Significance Criteria.....	12-14
Summary of Assumptions	12-15
Summary of Impact Assessment	12-15
No Action Alternative.....	12-15
Alternative 1 – Saline Habitat Complex I.....	12-22
Alternative 2 – Saline Habitat Complex II.....	12-22
Alternative 3 – Concentric Rings.....	12-23
Alternative 4 – Concentric Lakes	12-23
Alternative 5 – North Sea	12-23
Alternative 6 – North Sea Combined.....	12-23
Alternative 7 – Combined North and South Lakes	12-24
Alternative 8 – South Sea Combined	12-24
Next Steps.....	12-24
CHAPTER 13 RECREATION.....	13-1
Study Area	13-1
Regulatory Requirements	13-1
Historical Perspective.....	13-1
Data Sources	13-2
Data Limitations	13-2
Imperial County	13-3
Coachella Valley	13-3
Salton Sea Shoreline	13-3
Salton Sea State Recreation Area	13-4
Sonny Bono Salton Sea National Wildlife Refuge.....	13-4
Imperial Wildlife Area	13-4
Environmental Impacts.....	13-7
Analysis Methodology	13-7
Significance Criteria	13-8
Application of Significance Criteria.....	13-10
Summary of Assumptions	13-10
Summary of Impact Assessment	13-10
No Action Alternative.....	13-12
Alternative 1 – Saline Habitat Complex I.....	13-12
Alternative 2 – Saline Habitat Complex II.....	13-13
Alternative 3 – Concentric Rings.....	13-13

Alternative 4 – Concentric Lakes	13-13
Alternative 5 – North Salton Sea	13-14
Alternative 6 – North Salton Sea Combined	13-15
Alternative 7 – Combined North and South Lakes	13-15
Alternative 8 – South Salton Sea Combined	13-16
Next Steps.....	13-16
CHAPTER 14 HAZARDS, HAZARDOUS WASTE, AND PUBLIC HEALTH	14-1
Study Area	14-1
Regulatory Requirements	14-1
Hazards and Hazardous Waste	14-1
Public Health	14-2
Historical Perspective.....	14-2
Data Sources	14-2
Data Limitations	14-3
Existing Conditions.....	14-4
Hazards and Hazardous Wastes and Materials	14-4
Salton Sea Test Base	14-4
Other Sites	14-15
Public Health	14-15
Noncancer Health Risks from Selenium Exposures through Fish and Waterfowl Consumption	14-15
Mosquito Vectors	14-17
Air and Dust-Borne Diseases.....	14-17
Waterborne Bacteria and Pathogens	14-18
Gas Releases from Water Surface	14-18
Environmental Impacts.....	14-18
Analysis Methodology	14-18
Significance Criteria	14-19
Application of Significance Criteria.....	14-20
Summary of Assumptions	14-21
Summary of Impact Assessment	14-21
No Action Alternative.....	14-21
Hazardous Materials and Wastes	14-21
Public Health	14-24
Alternative 1 – Saline Habitat Complex I.....	14-24
Alternative 2 – Saline Habitat Complex II.....	14-25
Alternative 3 – Concentric Rings	14-25
Alternative 4 – Concentric Lakes	14-25
Alternative 5 – North Sea	14-25
Alternative 6 – North Sea Combined.....	14-26
Alternative 7 – Combined North and South Lakes	14-26
Alternative 8 – South Sea Combined	14-26
Next Steps.....	14-27
CHAPTER 15 CULTURAL RESOURCES	15-1
Study Area	15-1
Regulatory Requirements	15-1
Historical Perspective.....	15-1
Prehistoric Background	15-1
Ethnographic Background.....	15-2

Cahuilla	15-2
Cupeño.....	15-2
Serrano	15-2
Digueño (Ipai/Tipai/Kumeyaay [Kamia]).....	15-5
Southern Pauite (Chemehuevi).....	15-5
Mohave, Halcidhoma, Quechan, and Cocopa	15-5
Historic Background	15-5
Data Sources	15-5
Data Limitations	15-6
Existing Conditions.....	15-6
Cultural Resources Near the Salton Sea	15-6
Cultural Resources in Other Areas of Imperial and Coachella Valleys	15-7
Sacred Lands	15-7
Environmental Impacts.....	15-8
Analysis Methodology	15-8
Significance Criteria	15-8
Application of Significance Criteria.....	15-8
Summary of Assumptions	15-9
Summary of Impact Assessment	15-9
No Action Alternative.....	15-9
Alternative 1 – Saline Habitat Complex I.....	15-11
Alternative 2 – Saline Habitat Complex II.....	15-11
Alternative 3 – Concentric Rings.....	15-12
Alternative 4 – Concentric Lakes	15-12
Alternative 5 – North Sea	15-12
Alternative 6 – North Sea Combined.....	15-12
Alternative 7 – Combined North and South Lakes	15-13
Alternative 8 – South Sea Combined	15-13
Next Steps.....	15-13
CHAPTER 16 PALEONTOLOGICAL RESOURCES.....	16-1
Study Area	16-1
Regulatory Requirements	16-1
Historical Perspective.....	16-1
Data Sources	16-2
Data Limitations	16-2
Existing Conditions.....	16-2
Paleontologic Sensitivity at the Salton Sea	16-3
Stratigraphic Inventory of Relevant Geological Units	16-4
Lacustrine Sediments of Lake Cahuilla.....	16-7
Paleospring Deposits	16-7
Undifferentiated Quaternary Alluvium and Eolian Sediments	16-7
Brawley Formation and Ocotillo Conglomerate.....	16-7
Borrego Formation	16-8
Palm Spring Group.....	16-8
Imperial Group	16-8
Other Rocks	16-8
Special Factors Contributing to Paleontologic Sensitivity	16-9
Records Review	16-9
Environmental Impacts.....	16-10
Analysis Methodology	16-10

Significance Criteria	16-10
Application of Significance Criteria.....	16-10
Summary of Assumptions	16-11
Summary of Impact Assessment	16-11
No Action Alternative.....	16-11
Alternative 1 – Saline Habitat Complex I.....	16-13
Alternative 2 – Saline Habitat Complex II.....	16-13
Alternative 3 – Concentric Rings.....	16-13
Alternative 4 – Concentric Lakes	16-14
Alternative 5 – North Sea	16-14
Alternative 6 – North Sea Combined.....	16-14
Alternative 7 – Combined North and South Lakes	16-14
Alternative 8 – South Sea Combined	16-15
Next Steps.....	16-15
CHAPTER 17 NOISE	17-1
Study Area	17-2
Regulatory Requirements	17-2
Imperial County Noise Standards	17-2
Sensitive Receptors	17-2
Construction Noise.....	17-2
Operation Noise	17-3
Riverside County Noise Standards	17-5
Sensitive Receptors	17-5
Construction Noise.....	17-5
Operation Noise	17-6
Vibration	17-6
Historical Perspective.....	17-6
Data Sources	17-6
Data Limitations	17-6
Existing Conditions.....	17-6
Noise Sources.....	17-7
Sensitive Receptors	17-9
Environmental Impacts.....	17-9
Analysis Methodology	17-9
Significance Criteria	17-9
Application of Significance Criteria.....	17-9
Summary of Assumptions	17-9
Summary of Impact Assessment	17-11
No Action Alternative.....	17-14
Alternative 1 – Saline Habitat Complex I.....	17-14
Alternative 2 – Saline Habitat Complex II.....	17-14
Alternative 3 – Concentric Rings.....	17-15
Alternative 4 – Concentric Lakes	17-15
Alternative 5 – North Sea	17-15
Alternative 6 – North Sea Combined.....	17-15
Alternative 7 – Combined North and South Lakes	17-16
Alternative 8 – South Sea Combined	17-16
Next Steps.....	17-16

CHAPTER 18 AESTHETIC AND VISUAL RESOURCES	18-1
Study Area	18-1
Regulatory Requirements	18-1
State Scenic Highway Program	18-1
County of Imperial General Plan	18-1
County of Riverside General Plan	18-2
Historical Perspective.....	18-2
Data Sources	18-2
Data Limitations	18-2
EXISTING Conditions	18-2
Visual Resources	18-3
North Shore Subarea	18-3
West Shore Subarea.....	18-3
South Shore Subarea.....	18-4
East Shore Subarea.....	18-4
Environmental Impacts.....	18-4
Analysis Methodology	18-4
Open Water.....	18-31
Visible Structures	18-31
Related Aspects of Visual Character	18-31
Significance Criteria	18-31
Application of Significance Criteria.....	18-31
Summary of Assumptions	18-32
Summary of Impact Assessment	18-32
No Action Alternative.....	18-32
Alternative 1 – Saline Habitat Complex I.....	18-35
Alternative 2 – Saline Habitat Complex II.....	18-36
Alternative 3 – Concentric Rings	18-36
Alternative 4 – Concentric Lakes	18-36
Alternative 5 – North Sea	18-47
Alternative 6 – North Sea Combined	18-47
Alternative 7 – Combined North and South Lakes	18-47
Alternative 8 – South Sea Combined	18-48
Next Steps.....	18-48
CHAPTER 19 PUBLIC SERVICES AND UTILITIES	19-1
Study Area	19-1
Regulatory Requirements	19-1
Historical Perspective.....	19-1
Data Sources	19-1
Data Limitations	19-1
Existing Conditions.....	19-2
Police Protection	19-2
Fire Protection.....	19-2
Emergency Services	19-2
Schools	19-3
Libraries	19-3
Water Supply and Treatment	19-4
Wastewater	19-5
Stormwater and Flood Management.....	19-6
Telephone	19-7

Natural Gas	19-7
Solid Waste	19-7
Environmental Impacts.....	19-9
Analysis Methodology	19-9
Significance Criteria	19-9
Application of Significance Criteria.....	19-9
Summary of Assumptions	19-10
Summary of Impact Assessment	19-10
No Action Alternative.....	19-10
Alternative 1 – Saline Habitat Complex I.....	19-12
Alternative 2 – Saline Habitat Complex II.....	19-12
Alternative 3 – Concentric Rings.....	19-12
Alternative 4 – Concentric Lakes	19-13
Alternative 5 – North Sea	19-13
Alternative 6 – North Sea Combined.....	19-13
Alternative 7 – Combined North and South Lakes	19-13
Alternative 8 – South Sea Combined	19-14
Next Steps.....	19-14
CHAPTER 20 TRANSPORTATION AND TRAFFIC.....	20-1
Study Area	20-1
Regulatory Requirements	20-1
Historical Perspective.....	20-1
Data Sources	20-1
Data Limitations	20-1
Existing Conditions.....	20-1
Roadways	20-2
Railroads	20-5
Airports	20-5
Environmental Impacts.....	20-7
Analysis Methodology	20-7
Significance Criteria	20-8
Application of Significance Criteria.....	20-8
Summary of Assumptions	20-9
Summary of Impact Assessment	20-9
No Action Alternative.....	20-9
Alternative 1 – Saline Habitat Complex I.....	20-19
Alternative 2 – Saline Habitat Complex II.....	20-19
Alternative 3 – Concentric Rings.....	20-19
Alternative 4 – Concentric Lakes	20-20
Alternative 5 – North Sea	20-20
Alternative 6 – North Sea Combined.....	20-20
Alternative 7 – Combined North and South Lakes	20-21
Alternative 8 – South Sea Combined	20-21
Next Steps.....	20-21
CHAPTER 21 POWER PRODUCTION AND ENERGY	21-1
Study Area	21-1
Regulatory Requirements	21-1
Historical Perspective.....	21-1
Data Sources	21-1

Data Limitations	21-1
Existing Conditions.....	21-2
Electricity Providers.....	21-2
Imperial Irrigation District	21-2
Southern California Edison	21-5
San Diego Gas & Electric.....	21-5
Geothermal Power	21-6
California	21-9
Generating Capacity in Mexico	10
Environmental Impacts.....	21-10
Analysis Methodology	21-10
Significance Criteria	21-10
Application of Significance Criteria.....	21-11
Summary of Assumptions	21-11
Summary of Impact Assessment	21-11
No Action Alternative.....	21-11
Alternative 1 – Saline Habitat Complex I.....	21-15
Alternative 2 – Saline Habitat Complex II.....	21-15
Alternative 3 – Concentric Rings.....	21-16
Alternative 4 – Concentric Lakes	21-16
Alternative 5 – North Sea	21-16
Alternative 6 – North Sea Combined.....	21-17
Alternative 7 – Combined North and South Lakes	21-17
Alternative 8 – South Sea Combined	21-17
Next Steps.....	21-18
CHAPTER 22 ECONOMIC AND SOCIAL EFFECTS	22-1
Study Area	22-1
Regulatory Requirements	22-1
Historical Perspective.....	22-1
Data Sources	22-2
Data Limitations	22-2
Existing Conditions.....	22-2
Environmental Impacts.....	22-2
Analysis Methodology	22-2
Significance Criteria	22-3
Summary of Assumptions	22-3
Summary of Impact Assessment	22-3
No Action Alternative.....	22-4
Alternative 1 – Saline Habitat Complex I.....	22-9
Alternative 2 – Saline Habitat Complex II.....	22-10
Alternative 3 – Concentric Rings.....	22-10
Alternative 4 – Concentric Lakes	22-11
Alternative 5 – North Sea	22-11
Alternative 6 – North Sea Combined.....	22-12
Alternative 7 – Combined North and South Lakes	22-12
Alternative 8 – South Sea Combined	22-13
Next Steps.....	22-13
CHAPTER 23 CUMULATIVE IMPACTS	23-1
CEQA Requirements.....	23-1

Cumulative Impact Analysis Methodology	23-1
Analysis Of Cumulative Impacts	23-3
Description of Cumulative Projects	23-3
All-American Canal Lining Project.....	23-3
Coachella Valley Multiple Species Habitat Conservation Plan.....	23-3
Colorado River Aqueduct Desalination and Salton Sea Water Supply Project..	23-4
Desert Southwest Transmission Line.....	23-5
Drop 2 Reservoir Project, Lower Colorado River Water Storage Project.....	23-5
Green Path Project—Imperial Irrigation District, Los Angeles Department of Water and Power, and Citizen's Energy	23-6
Metropolitan Water District of Southern California's New and Alamo Rivers Water Right Applications	23-6
New and Alamo River, Reconnaissance Inventory of Wetland and Sedimentation Basin Sites.....	23-7
Salton Sea Restoration Project-Federal Feasibility Study.....	23-8
Salton Sea Shallow Water Habitat Pilot Project.....	23-8
Salton Sea Unit 6, CE Obsidian Energy LLC	23-9
Southwest Transmission Expansion Plan	23-9
Torres Martinez Water Quality Wetland Project.....	23-10
Total Maximum Daily Load Implementation	23-10
Vertical Tube Evaporator Geothermal Desalination Demonstration Project	23-11
Cumulative Impacts by Resource Area	23-11
Surface Water	23-11
Surface Water Quality	23-12
Groundwater	23-12
Biological Resources.....	23-12
Geology, Soils, Faults, Seismicity, and Mineral Resources	23-13
Climate and Air Quality	23-14
Land Use	23-14
Population and Housing	23-15
Recreation.....	23-15
Hazards, Hazardous Waste, and Public Health	23-15
Cultural Resources.....	23-15
Paleontological Resources.....	23-16
Noise	23-16
Aesthetic and Visual Resources	23-16
Public Services and Utilities	23-16
Transportation and Traffic	23-16
Power Production and Energy	23-17
CHAPTER 24 GROWTH INDUCING IMPACTS	24-1
CEQA guidelines related to Growth Inducing Impacts	24-1
Population Growth Projections.....	24-1
Methods Used for Analysis of Growth Inducing Impacts.....	24-2
Construction and Operations and Maintenance Effects.....	24-2
Land Use Changes Effects	24-2
Improved Ecological, Water Quality, and Air Quality Effects.....	24-3
Analysis of Growth inducing Impacts	24-3
Criteria: Foster Economic or Population Growth or the Construction of Additional Housing	24-3
No Action Alternative.....	24-3

Alternatives 1 through 8	24-4
Criteria: Remove Obstacles to Population Growth.....	24-5
No Action Alternative.....	24-5
Alternatives 1 through 8	24-5
Criteria: Require the Construction of Additional Community Service Facilities that Could Cause Significant Environmental Effects	24-6
No Action Alternative.....	24-6
Alternatives 1 through 8	24-6
Criteria: Encourage and Facilitate Other Activities that Would Significantly Affect the Environment	24-6
No Action Alternative.....	24-6
Alternatives 1 through 8	24-6
CHAPTER 25 PERMITS AND APPROVALS	25-1
CHAPTER 26 PUBLIC INVOLVEMENT, CONSULTATION, AND COORDINATION.....	26-1
Role of Public Involvement in the Programmatic Environmental impact Report	26-1
Scoping	26-1
Preparation of the Draft Programmatic Environmental Impact Report.....	26-2
Public Review of the Draft Programmatic Environmental Impact Report.....	26-3
Preparation of the Final Programmatic Environmental Impact Report.....	26-3
Consultation and Coordination.....	26-3
Tribal Consultation and Coordination.....	26-4
Approach and Tools	26-4
Approach.....	26-4
Tools	26-5
Public Involvement Challenges	26-5
Outreach Meetings.....	26-6
Advisory Committee Meetings	26-6
Working Group and Technical Committee Meetings.....	26-8
Public Outreach Meetings	26-8
CHAPTER 27 LIST OF PREPARERS	27-1
CHAPTER 28 BIBLIOGRAPHY	28-1
CHAPTER 29 ACRONYMS, GLOSSARY OF TERMS, AND LIST OF COMMON AND SCIENTIFIC NAMES	29-1
Acronyms	29-1
Glossary of Terms.....	29-6
List Of Common and Scientific Names for Species in the Programmatic Environmental Impact Report.....	29-15

List of Appendices

Item

- A Salton Sea Ecosystem Restoration Legislation and Excerpts from the Fish and Game Code and Water Code

- B Notice Of Preparation, Erratum to the Notice Of Preparation, Summary of Scoping Meeting Comments, and Responses to Notice of Preparation
- C Description of the Habitat-Based Bird Model
- D Water Quality Modeling Methodology and Results
- E Climate and Air Quality Impact Assessment
- F Ecological Risk Assessment
- G Screening-Level Human Health Risk Assessment of Selenium Exposures from Consumption of Fish and Waterfowl from the Salton Sea
- H Ecosystem Restoration Study
- I Alternative-Specific Materials Provided by the Imperial Group and the Salton Sea Authority

List of Tables

Item	Page
1-1 Study Area	1-5
2-1 Required Imported Water from Colorado River to Maintain a Whole Sea.....	2-8
2-2 Results of the Application of Broad Screening Criteria to Range of Concepts.....	2-15
2-3 Results of the Application of Screening Criteria to Range of Configurations	2-27
3-1 Assumptions in the Alternatives and Related Needs for Further Evaluation.....	3-3
3-2 Comparison of Infrastructure Features in Alternatives	3-51
3-3 Comparison of Alternatives Description by Phase	3-53
3-4 Estimated Costs for Air Quality Management and Pupfish Channels for the No Action Alternative-CEQA Conditions and No Action Alternative-Variability Conditions (in million dollars)	3-58
3-5 Estimated Costs for Alternative 1 (in million dollars)	3-64
3-6 Estimated Costs for Alternative 2 (in million dollars)	3-66
3-7 Estimated Costs for Alternative 3 (in million dollars)	3-68
3-8 Estimated Costs for Alternative 4 (in million dollars)	3-70
3-9 Estimated Costs for Alternative 5 (in million dollars)	3-72
3-10 Estimated Costs for Alternative 6 (in million dollars)	3-74
3-11 Estimated Costs for Alternative 7 (in million dollars)	3-77
3-12 Estimated Costs for Alternative 8 (in million dollars)	3-79
3-13 Schedule for Delivery of Potential Transfer Water under the Quantification Settlement Agreement	3-80
3-14 Comparison of Brine Sink Characteristics with Water Transfers under the Quantification Settlement Agreement	3-81
3-15 Summary of Impacts and Benefits	3-86
4-1 Summary of Previous Studies and Investigations	4-2
4-2 Related Projects	4-8
5-1 Water Rights Allocated in the Vicinity of the Salton Sea	5-2
5-2 Relative Contribution of Inflow Sources to the Salton Sea (1950 to 2002)	5-18
5-3 Summary of Assumptions for Surface Water Resources	5-22
5-4 Summary of Benefit and Impact Assessments to Surface Water Resources	5-23
5-5 Surface Water Conditions for No Action Alternative	5-34

5-6	Surface Water Conditions for Alternative 1	5-42
5-7	Surface Water Conditions for Alternative 2	5-49
5-8	Surface Water Conditions for Alternative 3	5-50
5-9	Surface Water Conditions for Alternative 4	5-50
5-10	Surface Water Conditions for Alternative 5	5-53
5-11	Surface Water Conditions for Alternative 6	5-54
5-12	Surface Water Conditions for Alternative 7	5-63
5-13	Surface Water Conditions for Alternative 8	5-64
6-1	Impaired Water Bodies within Salton Sea Watershed.....	6-2
6-2	Designated Beneficial Uses for Surface Water in the Salton Sea.....	6-5
6-3	Seasonal Nutrient Concentrations in the Salton Sea and Tributaries	6-23
6-4	Summary of Assumptions for Water Quality Analysis	6-28
6-5	Summary of Benefit and Impact Assessments to Surface Water Quality	6-29
7-1	Summary of Assumptions for Groundwater Resources	7-8
7-2	Summary of Benefit and Impact Assessments to Groundwater Resources.....	7-9
8-1	Special Status Species	8-6
8-2	Primary Vegetation and Acreage of Adjacent Wetlands	8-13
8-3	Summary of Assumptions for Biological Resources	8-18
8-4	Summary of Benefit and Impact Assessments to Biological Resources	8-24
8-5	Salton Sea Changes under the No Action Alternative-CEQA Conditions	8-38
8-6	Salton Sea Changes under the No Action Alternative-Variability Conditions.....	8-38
8-7	Summary of Selenium Risk (Hazard Quotient [HQ]) based on High Toxicity Reference Values (from Appendix F).....	8-42
8-8	Summary of Selenium Risk as Area-Weighted Hazard Index (HI) and Risk Categories based on Low Toxicity Reference Values (from Appendix F).....	8-45
8-9	Summary of Habitats/Components for Alternative 1 - Saline Habitat Complex I	8-46
8-10	Change in Projected Habitat Capacity (2078) under Alternative 1 Relative to Existing Conditions and No Action Alternative	8-47
8-11	Summary of Habitats/Components for Alternative 2	8-50
8-12	Change in Projected Habitat Capacity (2078) under Alternative 2 Relative to Existing Conditions and No Action Alternative	8-51
8-13	Summary of Habitats/Components for Alternative 3	8-53
8-14	Change in Projected Habitat Capacity (2078) under Alternative 3 Relative to Existing Conditions and No Action Alternative	8-54
8-15	Summary of Habitats/Components for Alternative 4	8-56
8-16	Change in Projected Habitat Capacity (2078) under Alternative 4 Relative to Existing Conditions and No Action Alternative	8-58
8-17	Summary of Habitats/Components for Alternative 5	8-59
8-18	Change in Projected Habitat Capacity (2078) under Alternative 5 Relative to Existing Conditions and No Action Alternative	8-61
8-19	Summary of Habitats/Components for Alternative 6	8-63
8-20	Change in Projected Habitat Capacity (2078) under Alternative 6 Relative to Existing Conditions and No Action Alternative	8-64
8-21	Summary of Habitats/Components for Alternative 7	8-66
8-22	Change in Projected Habitat Capacity (2078) under Alternative 7 Relative to Existing Conditions and No Action Alternative	8-67
8-23	Summary of Habitats/Components for Alternative 8	8-69

8-24	Change in Projected Habitat Capacity (2078) under Alternative 8 Relative to Existing Conditions and No Action Alternative	8-70
8-25	Change in Projected Habitat Capacity (by 2078) Relative to Historic Abundance - All Seasons	8-74
9-1	Geologic Time Scale	9-4
9-2	Division of Safety of Dams Consequence-Hazard Matrix	9-19
9-3	Deterministic Seismic Hazard Peak Ground Accelerations for a Magnitude 7.8 Earthquake on the Southern San Andreas Fault	9-20
9-4	Probabilistic Seismic Hazard Peak Ground Accelerations for about a 475-year Return Period	9-20
9-5	Comparison of Peak Ground Accelerations	9-21
9-6	Summary of Assumptions for Geology, Soils, Faults, Seismicity, and Mineral Resources	9-22
9-7	Summary of Benefit and Impact Assessments to Geology, Soils, Faults, Seismicity, and Mineral Resources	9-25
10-1	National and California Ambient Air Quality Standards.....	10-2
10-2	Meteorological Data for the Imperial /Coachella Valley Region (2005).....	10-8
10-3	Ozone Data Summary for Monitoring Stations in Imperial and Riverside Counties, 1998-2005	10-17
10-4	PM ₁₀ Data Summary for Monitoring Stations in Imperial and Riverside Counties, 1998-2005.....	10-18
10-5	Ambient SO ₂ , NO ₂ , and CO Concentrations in Imperial and Riverside Counties, 1998-2005.....	10-19
10-6	Federal and California Air Quality Attainment Status Designations by County and Area.....	10-20
10-7	Estimated 2005 Regional Emissions Inventory Annual Average Daily Emissions Rates for All Sources in the Air Basin (tons/day)	10-22
10-8	Estimated 2005 Annual Average Daily PM ₁₀ Emissions in the Salton Sea Air Basin (tons/day)	10-23
10-9	2004 California Air Toxics Inventory	10-24
10-10	Construction Emissions Thresholds of Significance for the Portion of the Salton Sea Air Basin within the South Coast Air Quality Management District (Riverside County, Coachella Valley).....	10-32
10-11	Operational Significance Thresholds for the Riverside County Portion of the Salton Sea Air Basin	10-33
10-12	Most Stringent Ambient Air Quality Standard and Allowable Change in Concentration	10-33
10-13	Local Significance Thresholds for the ICAPCD.....	10-34
10-14	Summary of Assumptions for Climate and Air Quality	10-36
10-15	Summary of Benefit and Impact Assessments to Climate and Air Quality.....	10-39
11-1	Definitions for Important Farmland Categories in Imperial and Riverside Counties.....	11-1
11-2	Distribution of Important Farmlands and Prime Farmlands in 2004	11-26
11-3	Summary of Assumptions for Land Use.....	11-36
11-4	Summary of Benefit and Impact Assessments to Land Use	11-37
11-5	Distance to and Extent of Open Water from Shoreline	11-42
12-1	Population by County and Community (1980-2004)	12-3
12-2	Selected Population Characteristics, Counties and Communities (2000).....	12-4

12-3	Imperial County and Communities, Housing Occupancy and Tenure Characteristics (2000)	12-5
12-4	Imperial County and Communities, Housing Types (2000).....	12-7
12-5	Riverside County and Communities, Housing Occupancy and Tenure Characteristics (2000)	12-8
12-6	Riverside County and Communities, Housing Types (2000).....	12-9
12-7	Cabazon Indian Reservation and Torres Martinez Indian Reservation, Housing Occupancy and Tenure Characteristics (2000).....	12-10
12-8	Cabazon Indian Reservation and Torres Martinez Indian Reservation, Housing Types (2000).....	12-11
12-9	Authorized Housing Unit Building Permits by County and Community (1990-2004)	12-12
12-10	Employment Distribution in Imperial County (2000-2005).....	12-13
12-11	Employment Distribution in Riverside-San Bernardino-Ontario Metropolitan Statistical Area (2000-2005).....	12-14
12-12	Summary of Assumptions for Population and Housing	12-15
12-13	Summary of Benefit and Impact Assessments to Population and Housing	12-16
12-14	Imperial County Population Projections (2000-2050).....	12-17
12-15	Riverside County Population Projections (2000-2050).....	12-18
12-16	Housing Projections for Counties and Cities (2000-2030)	12-19
12-17	Non-Farm Employment Projections for Imperial County (2002-2012)	12-20
12-18	Non-Farm Employment Projections for Riverside County (2002-2012)	12-20
12-19	Construction Sector Employment Projections in Imperial and Riverside Counties	12-21
12-20	Construction Worker Projections in Imperial and Riverside Counties	12-22
13-1	Salton Sea State Recreation Area Visitation Data from 1995 to 2005	13-2
13-2	Imperial Wildlife Area - Wister Unit - Public Use Profile for 1990 to 2000.....	13-7
13-3	Results of the Recreation and Economics Opportunities Survey	13-8
13-4	Recreational Opportunities by Components Considered in the Alternatives.....	13-9
13-5	Summary of Assumptions for Recreational Opportunities.....	13-10
13-6	Summary of Benefit and Impact Assessments to Recreational Opportunities	13-11
14-1	Online Databases Used to Search for Hazardous Materials Records	14-3
14-2	Description of Potentially Hazardous Waste Sites Identified from Database Search...14-7	
14-3	Comparisons of Estimated Safe Fish Consumption Rates and Advisories for the Salton Sea Based on Selenium Concentrations in Fish Tissues	14-16
14-4	Summary of Assumptions for Hazards, Hazardous Materials, and Public Health Issues	14-21
14-5	Summary of Benefit and Impact Assessments to the Hazards, Hazardous Materials, and Public Health Issues	14-22
15-1	Summary of Assumptions for Cultural Resources.....	15-9
15-2	Summary of Benefit and Impact Assessments to Cultural Resources	15-10
16-1	Generalized Sedimentary Units Mapped in the Study Area by Jennings (1967) and Rogers (1965) and the Assigned Paleontological Sensitivity	16-4
16-2	Summary of Assumptions for Paleontological Resources Impact Assessment	16-11
16-3	Summary of Benefit and Impact Assessments to Paleontological Resources	16-12
17-1	Typical Sound Levels Measured in the Environment and Industry	17-1
17-2	Construction Noise Standards, County of Imperial	17-3
17-3	Imperial County Noise/Land Use Compatibility Guidelines	17-4

17-4	Operation Noise Standards, County of Imperial.....	17-5
17-5	Noise Levels at Selected Locations along Key Roadways	17-7
17-6	Existing Railroad Noise Levels.....	17-8
17-7	Summary of Assumptions for Noise	17-10
17-8	Noise Levels and Abatement Potential of Construction Equipment Noise.....	17-10
17-9	Construction Noise Impacts and Attenuation of a Noise Source of 78 to 88 dBA.....	17-11
17-10	Summary of Benefit and Impact Assessments to Noise	17-12
18-1	Summary of Assumptions for Visual Resources	18-32
18-2	Summary of Benefit and Impact Assessments to Visual Resources.....	18-33
18-3	Distance to and Extent of Open Water from Shoreline	18-41
19-1	Selected Characteristics of School Districts near the Salton Sea (School Year 2003-2004)	19-3
19-2	Treated Water Systems in the Study Area.....	19-4
19-3	Wastewater Treatment Facilities in the Study Area	19-5
19-4	Solid Waste Landfills in the Study Area	19-7
19-5	Summary of Assumptions for Public Services and Utilities	19-10
19-6	Summary of Benefit and Impact Assessments to Public Services and Utilities	19-11
20-1	Level of Service Definitions	20-2
20-2	Recent Traffic Volumes and Level of Service on Key Roadways near the Salton Sea	20-5
20-3	Public Airports near the Salton Sea	20-7
20-4	Summary of Assumptions for Transportation and Traffic	20-9
20-5	Summary of Benefit and Impact Assessments to Transportation and Traffic	20-10
20-6	Comparison of Projected Peak Traffic Volumes in Peak Direction and Level of Service C on Key Roadways in 2020	20-12
20-7	Comparison of Projected Peak Traffic Volumes in Peak Direction and Level of Service C on Key Roadways in 2078.....	20-15
21-1	Historical Electrical Energy Delivered by Imperial Irrigation District.....	21-2
21-2	Historical Electrical Energy Delivered by Southern California Edison.....	21-5
21-3	Historical Electrical Energy Delivered by San Diego Gas & Electric	21-6
21-4	Net Power Production for Existing Salton Sea Known Geothermal Resource Area	21-9
21-5	Historical Electricity Consumption in California	21-9
21-6	Summary of Assumptions for Power Production and Energy Resources	21-11
21-7	Summary of Benefit and Impact Assessments to Power Production and Energy Resources	21-12
21-8	Projected Electricity Consumption without the No Action Alternative Facilities	21-14
21-9	Potential Electrical Power Demands for Components in the Alternatives	21-14
21-10	Power Demands fro Operation of the Alternatives	21-15
22-1	Summary of Assumptions for Economic and Social Effects.....	22-3
22-2	Imperial County Population Projections (2000-2050).....	22-5
22-3	Riverside County Population Projections (2000-2050).....	22-6
22-4	Non-Farm Employment Projections for Imperial County (2002-2012)	22-7
22-5	Non-Farm Employment Projections for Riverside County (2002-2012)	22-7
22-6	Comparison of Characteristics that Could Affect Environmental Justice	22-8
23-1	Related Projects	23-2

24-1	Population Projections for Imperial and Riverside Counties	24-1
24-2	Projected Work Force during Peak Construction Year by Alternative.....	24-4
24-3	Projected Work Force during Operations and Maintenance by Alternative.....	24-4
25-1	Permits and Approvals Required	25-1
26-1	PEIR Scoping Meeting Locations and Dates	26-2
26-2	Advisory Committee Meetings Dates and Primary Topics Addressed.....	26-7
26-3	Working Group Meetings Dates and Primary Topics Addressed.....	26-9
26-4	Public Outreach Meeting Locations and Dates by Set.....	26-11

List of Figures

Item		Page
1-1	Salton Sea Advisory Committee Members	1-15
3-1	Estimated Construction Schedule for Alternatives 1 through 8	3-7
3-2A	Phase 1 (2020) No Action Alternative-CEQA Conditions.....	3-11
3-2B	Phase 2 (2030) No Action Alternative-CEQA Conditions.....	3-11
3-2C	Phase 1 (2040) No Action Alternative-CEQA Conditions.....	3-13
3-2D	Phase 1 (2078) No Action Alternative-CEQA Conditions.....	3-13
3-3A	Phase 1 (2020) No Action Alternative-Variability Conditions	3-15
3-3B	Phase 2 (2030) No Action Alternative-Variability Conditions	3-15
3-3C	Phase 1 (2040) No Action Alternative-Variability Conditions	3-17
3-3D	Phase 1 (2078) No Action Alternative-Variability Conditions	3-17
3-4A	Phase 1 (2020) Alternative 1 - Saline Habitat Complex I	3-19
3-4B	Phase 2 (2030) Alternative 1 - Saline Habitat Complex I	3-19
3-4C	Phase 1 (2040) Alternative 1 - Saline Habitat Complex I	3-21
3-4D	Phase 1 (2078) Alternative 1 - Saline Habitat Complex I	3-21
3-5A	Phase 1 (2020) Alternative 2 - Saline Habitat Complex II	3-23
3-5B	Phase 2 (2030) Alternative 2 - Saline Habitat Complex II	3-23
3-5C	Phase 1 (2040) Alternative 2 - Saline Habitat Complex II	3-25
3-5D	Phase 1 (2078) Alternative 2 - Saline Habitat Complex II	3-25
3-6A	Phase 1 (2020) Alternative 3 - Concentric Rings	3-27
3-6B	Phase 2 (2030) Alternative 3 - Concentric Rings	3-27
3-6C	Phase 1 (2040) Alternative 3 - Concentric Rings	3-29
3-6D	Phase 1 (2078) Alternative 3 - Concentric Rings	3-29
3-7A	Phase 1 (2020) Alternative 4 - Concentric Lakes.....	3-31
3-7B	Phase 2 (2030) Alternative 4 - Concentric Lakes.....	3-31
3-7C	Phase 1 (2040) Alternative 4 - Concentric Lakes.....	3-33
3-7D	Phase 1 (2078) Alternative 4 - Concentric Lakes.....	3-33
3-8A	Phase 1 (2020) Alternative 5 - North Sea	3-35
3-8B	Phase 2 (2030) Alternative 5 - North Sea	3-35
3-8C	Phase 1 (2040) Alternative 5 - North Sea	3-37
3-8D	Phase 1 (2078) Alternative 5 - North Sea	3-37
3-9A	Phase 1 (2020) Alternative 6 - North Sea Combined.....	3-39
3-9B	Phase 2 (2030) Alternative 6 - North Sea Combined.....	3-39
3-9C	Phase 1 (2040) Alternative 6 - North Sea Combined.....	3-41
3-9D	Phase 1 (2078) Alternative 6 - North Sea Combined.....	3-41

3-10A Phase 1 (2020) Alternative 7 - Combined North and South Lakes	3-43
3-10B Phase 2 (2030) Alternative 7 - Combined North and South Lakes	3-43
3-10C Phase 1 (2040) Alternative 7 - Combined North and South Lakes	3-45
3-10D Phase 1 (2078) Alternative 7 - Combined North and South Lakes	3-45
3-11A Phase 1 (2020) Alternative 8 - South Sea Combined	3-47
3-11B Phase 2 (2030) Alternative 8 - South Sea Combined	3-47
3-11C Phase 1 (2040) Alternative 8 - South Sea Combined	3-49
3-11D Phase 1 (2078) Alternative 8 - South Sea Combined	3-49
3-12 Land Ownership near the Salton Sea	3-59
 5-1 Salton Sea Watershed and Major Contributing Streams	5-3
5-2 Long Term Average Monthly Temperature, Precipitation, and Evapotranspiration at Brawley	5-7
5-3 Imperial Irrigation District Water Service Area	5-11
5-4 Coachella Valley Water District Water Service Area.....	5-15
5-5 Estimated Historical Inflows to the Salton Sea.....	5-19
5-6 Projected Salton Sea Inflows for No Action Alternative-CEQA Conditions	5-27
5-7 Example of Stochastic Results.....	5-29
5-8 Projected No Action Alternative-Variability Conditions Inflows	5-31
5-9 Projected No Action Alternative-CEQA Conditions Inflows	5-31
5-10 Salton Sea Surface Water Elevation under the No Action Alternative-CEQA Conditions	5-37
5-11 Salton Sea Surface Water Elevation under the No Action Alternative-Variability Conditions	5-39
5-12 Brine Sink Surface Water Elevation under Alternative 1	5-43
5-13 Brine Sink Surface Water Elevation under Alternative 2	5-45
5-14 Brine Sink Surface Water Elevation under Alternative 3	5-47
5-15 Brine Sink Surface Water Elevation under Alternative 4	5-51
5-16 Brine Sink Surface Water Elevation under Alternative 5	5-55
5-17 Marine Sea Surface Water Elevation under Alternative 5	5-57
5-18 Brine Sink Surface Water Elevation under Alternative 6	5-59
5-19 Marine Sea Surface Water Elevation under Alternative 6	5-61
5-20 Brine Sink Surface Water Elevation under Alternative 7	5-65
5-21 Recreational Saltwater Lake Surface Water Elevation under Alternative 7	5-67
5-22 Brine Sink Surface Water Elevation under Alternative 7	5-69
5-23 Marine Sea Surface Water Elevation under Alternative 7	5-71
 6-1 Salton Sea Watershed	6-3
6-2 Locations of the Salton Sea CIMIS Stations	6-9
6-3 Wind Rose Plots for CIMIS Stations #136 (Oasis) and #141 (Mecca).....	6-11
6-4 Wind Rose Plots for CIMIS Stations #154 (Salton Sea North) and #127 (Salton Sea West)	6-13
6-5 Wind Rose Plot for CIMIS Stations #128 (Salton Sea East)	6-15
6-6 Contours of Observed Temperature for 1999	6-19
6-7 Contours of Observed Dissolved Oxygen for 1999	6-21
 7-1 Groundwater Basins.....	7-3
8-1 Location of Nesting Colonies of Colonial Breeding Birds	8-9
8-2 Predicted Habitat Capacity Relative to Historic Conditions.....	8-75

9-1	Major Geologic and Seismic Features in the Salton Basin	9-5
9-2	Earthquakes of Magnitude 2.0 or Greater within 50 miles of the Salton Sea.....	9-11
9-3	Earthquakes of Magnitude 4.0 or Greater within 50 miles of the Salton Sea.....	9-13
9-4	Soil Associations in the Study Area	9-15
10-1	Air Basin Boundaries and Regulatory Agency Jurisdictions in the Salton Sea Area....	10-3
10-2	Composite Annual Wind Rose for Indio 10-meter Meteorological Data	10-11
10-3	Composite Annual Wind Rose for Niland 10-meter Meteorological Data.....	10-13
10-4	Monitoring Station Locations in the Salton Sea Area.....	10-15
10-5	Phase I (Initiation to 2020) PM ₁₀ Emissions	10-55
10-6	Phase IV (2040 to 2078) PM ₁₀ Emissions	10-57
10-7	Phase I (Initiation to 2020) and Phase IV (2040 to 2078) NO _x Emissions	10-59
11-1	Land Use Planning Boundaries in the Study Area	11-3
11-2	Imperial County Land Use Plan Map	11-7
11-3	West Shores/Salton City Urban Area Plan Map.....	11-11
11-4	Land Use Designations for Salton City	11-13
11-5	Land Use Designations for Vista Del Mar	11-15
11-6	Land Use Designations for Salton Sea Beach	11-17
11-7	Land Use Designations for Desert Shores	11-19
11-8	Bombay Beach/Hot Mineral Spa Community Area Plan Map	11-21
11-9	Land Use Designations for Bombay Beach	11-23
11-10	Eastern Coachella Valley Area Land Use Plan Map	11-27
11-11	Western Coachella Valley Area Land Use Plan Map	11-29
11-12	Torres Martinez Reservation Land Use Plan	11-31
11-13	Important Farmlands in the Study Area	11-33
13-1	Recreation Resources in the Vicinity of the Salton Sea.....	13-1
14-1	Salton Sea Sites Potentially Contaminated by Hazardous Waste	14-5
15-1	Approximate Boundary Lines of the Ethnographic Groups of Southern California at the Time of the European Contact	15-3
16-1	Paleontological Sensitivity Adjacent to Salton Sea	16-5
18-1	Aesthetic/Visual Resource Study Area and Subareas	18-5
18-2	Salton Sea Existing Conditions Photo Point Locations	18-7
18-3	View to the Southwest from the Community of North Shore	18-9
18-4	View to the Southeast from the End of Johnson Road near Whitewater River	18-11
18-5	View to the East near Community of Desert Shores from State Highway 86.....	18-13
18-6	View to the East at Boat Ramp from Rancho Marina in Desert Shores	18-15
18-7	View to the North of Levee from Capri Lane in Desert Shores	18-15
18-8	View to the Northeast from Salton Sea Beach.....	18-17
18-9	View to the North from the Launching Facility near Salton City	18-19
18-10	View to the North from Observation Tower at Sonny Bono Salton Sea National Wildlife Refuge	18-21
18-11	View to the Northwest from State Highway 111 near Imperial Wildlife Area - Wister Unit	18-23
18-12	View to the Northwest of Salton Sea from Red Hill Marina County Park	18-23
18-13	View to the South from Red Hill Marina County Park Geothermal Facilities in Background	18-25

18-14	View to the Northwest from Bombay Beach at Salton Sea State Recreation Area....	18-27
18-15	View to the Northwest near Salton Sea State Recreation Area Headquarters	18-27
18-16	View to the Northwest from Mecca Beach at Salton Sea State Recreation Area	18-29
18-17	Simulation of Air Quality Management Canal	18-37
18-18	Simulation of Air Quality Management Canal and Exposed Playa with Brine Sink in the Background	18-39
18-19	Simulation of Saline Habitat Complex.....	18-45
20-1	Regional Access Routes to the Salton Sea	20-3
21-1	Power Production and Energy Study Area.....	21-3
21-2	Known Geothermal Resources Areas.....	21-7
